Haec est inscriptio quam dubithach marce mermin brittannorum regis demisit ad probandos scottorum sapientes se ipsum excellentissimum omnium scottorum brittonumque opinans scilicet putans nullum scottigenarum quanto magis brittonum doctorum in presentia mermin regis istam scripturam perlegere atque intellere potuisse. Sed nos caunchobrach. fergus. et doin innach. et suadbar opitulante deo illa scriptura non latuit. per annalem grecorum libellum atque alphabeti eandem inscriptionem investigantes.

ΙΒ ΙΖ ΙΒ Ε ΙΓ ΙΖ Ε ΚΑ · ΓΙΑ ΙΓ ΓΗΓ

ΙΗΑ ΙΑ ΚΙ Θ Ε ΙΒ.

Istius scripture talis est sensus.

Mermin rex conchen salutem.

Si ergo volueris istam scripturam dinoscere perspicati mente perscriptam greca annalem computi seriem. latinasque sequentes litteras post ipsa greca elementa ordinatas animadvertito atque agnoscito latinas literas subsequentes grecis elementis predicentibus convenire sicut in prescriptis lineis designavimus. Cum ergo grecas literas in prefata dubitachi scriptura aspiciendo videris respice grecarum literarum seriem ante scripturam atque in illa serie. id. grece videlicet elementa. tum virum non latebit et quia xiiii eadem litere optinent locum. Necesse est ut xiiii latini alphabetum literam designent. Item quia est in ipsa greci calculi serie quintum possidet locum recto quintam latini alphabeti est literam esse designatam. Atque ita per cetera decurrens totum sensum ipsius vel similis descriptionis intelliges.

Notum autem sit tue prudencie optime colgu nosterque doctissime magister quod non quasi tibi ignoranti istam expositiunculam transmittimus sed suppliciter poscimus ut istam explanationem ignorantibus et simplicioribus nostris scottigenis fratribus trans britannicum mare navigare volentibus per tuam benivolam caritatem insinues ne forte in presentia mermin gloriosi brittonum regis illam scriptionem non intellegentes erubescant.

Nos autem coram deo testamur quod nec causa elationis aut tumide quod inflationis absit istam vobis transmittimus exposicionem. sed istam latebram vitam scitatem latere fraterno amore non passi sumus. Omnis in expositis gaudere valete.

Octava species ebdomadis. uniformis et sola sine circuitu revolutionis extans. ad figuram per omnia prime ebdomadis. labentibus huius seculi consistit etatibus.
