coastal forest, and coastal hillsides, along the coast and
inland. This is a dry zone. The soil is very poor and
the vegetation is sparse. The trees are small and
scattered. The ground is covered with fallen leaves and
twigs. The soil is light brown and appears to be
well-drained. The vegetation consists mainly of
small shrubs and grasses.

On the 1st of November we were now at the coffee plantations, in the valley of the San Juan River, where we had to go through a series of small towns, and finally reached the village of La Union, where we were to meet our muleteers. We had to pass through a number of small villages, and finally reached the village of La Union, where we were to meet our muleteers. We had to pass through a number of small villages, and finally reached the village of La Union, where we were to meet our muleteers.
