

problems connected with Virgilian. I hope we shall not have to wait too long for your publication.

I shall look forward with pleasure to meeting you when I next come to Germany, I do not know when that will be, I have been asked by the American Council of Learned Societies to go to Brussels to attend the meeting of the Committee on the Du Cange dictionary in December 17-18. If I go I shall return immediately. If it were in April or May I should be tempted to stay several months. My health does not permit me to risk travel in the winter months.

Sincerely yours,

Charles H. Beeson.
