HIERONYMUS SUPER PROPHETAS

169

93 (Crawford 103). HIERONYMUS SUPER PROPHETAS.

Vellum, 343 x 245 mm., ff. 197, double columns of 47 lines. Cent. xi-xii, in a clear, slightly sloping minuscule. The volume is in a tender condition from damp. It was lot 1132 in the Bateman sale of 1893.

From Stavelot. On the lower margins of the last page of each quire, and the first of the next, is written, in red capitals:

FRATER VVIBOLDVS SANCTO REMACLO.

But these inscriptions cease after the tenth quire, and the tenth has only the first two words.

Inside the cover, at top, is (xv-xvi): Liber monasterii Stabulensis.

On f. 2 is a wood-cut label representing a shield leaning against a tree by a post. The shield is or, with three crescents, each surmounted by a star of six points.

Binding, skin over old boards: traces of two fastenings: re-backed in cent. xvii or xviii.

Collation. i gone, ii8 (wants 1-5) iii8-xxii8 xxiii4 xxiv8-xxvii8 (wants 7, 8).

The covers are lined with a Stavelot document of 1397, complete all but a small portion in the middle. It begins:

Vniuersis presentes literas et singulis inspecturis seu audituris fredericus de steinbach decanus totumque ca(pitulum: ... gap) sancti benedicti leodiensisque dyoc. salutem et rei subscripte noscere veritatem Noueritis quod cum magna et grauia/debita in quibus domicelle Elyzabeth relicte quondam liberti scabini stabulensis et nicholao nunc eius collaterali (gap) -ati nos et nostrum Monasterium perurgerent Et pro huius modi debitis deperditis magne partis bonorum nostrorum / verisimiliter immineret.

The Abbot is Walramus. The document seems to be an acquittance.

Contents: Hieronymus super Prophetas minores.

f. 1 is gone, except for small fragments. f. 2 is imperfect at upper l. corner, beginning: exultabunt. Hunc/...xx tyberium transtu/... laqueis capi soleant. (In Osee, Lib. I.)
